

GROWING SOUTH CAROLINA WIND: Expanding Supply Chain in the Palmetto State Workshop & Webinar

You are invited!

Please join us for an engaging discussion about
expanding South Carolina's wind industry.

Topics include:

- the status of wind energy development in South Carolina
- wind industry trends
- R & D to support the wind supply chain industry
- commercialization of new and advanced technologies
- retooling and diversifying existing companies
- workforce development

Featuring:

Jeff Anthony, Director of Business Development,
American Wind Energy Association

Elizabeth Colbert-Busch, Director of Development,
Clemson University Restoration Institute

Eric Lantz, Markets and Policy Analyst,
National Renewable Energy Laboratory

Moderated by **Catherine Vanden Houten**, Renewable Energy
Program Manager, South Carolina Energy Office

Wednesday, February 29th, 2012
2:00–4:00pm

SCANA Corporate Office
100 SCANA Parkway
Cayce, SC 29172
Or Online Via Webinar

Who should participate:

- those involved in local and regional economic development
- members of chambers of commerce
- state and local policymakers
- energy and utility interests

Registration:

- This event is free of charge; refreshments will be provided.
- Attend either in person or online via webinar.
- Please register at <http://bit.ly/windworkshop> by **Friday, February 24th**. Registration will accepted on a first come, first serve basis.
- Comments or questions? Contact Chris Carnevale at chris@cleanenergy.org or (843) 225-2371 for more information.

This workshop is made possible by a U.S. Department of Energy Grant, (Wind Powering America DE-EE0000515) administered by the South Carolina Energy Office and implemented by the Southern Alliance for Clean Energy.
